Contents v
Publisher's Note vi

Dr. Moshe Barash: From the Technion to Purdue: the British Connection
W. Johnson (Cheshire, UK) 1
Some women in the history of mathematics, physics, astronomy and engineering
W. Johnson (Cheshire, UK) 33
On the microstructure and mechanical properties of squeeze-cast Al–wt% Si alloy
N.A.El. Mahallawy, M.A. Taha and M.L. Zamzam (Cairo, Egypt) 73
Grinding of transformation toughening ceria stabilized tetragonal zirconia polycrystals
V.E. Annamalai, T. Sornakumar, C.V. Gokularathnam and R. Krishnamurthy (Madras, India) 87
Design aspects and detailed study of medium tonnage mechanical press brakes
V. Ramamurti, P.N. Sreeram and B.K. Kannan (Toledo, OH, USA) 99
Conditions prevailing in the carburising process and their effect on the fatigue properties of carburised gears
T.P. Wilks, G.P. Cavallaro, C. Subramanian, K.N. Strafford (Levels, Australia), P. French and J.E. Allison (Adelaide, Australia) 111
Status and prospects for the seamless steel tube industry in India
S.H. Ghude (Hyderabad, India) 127
Characterisation of tool wear and failure
L.C. Lee, K.Y. Lam and X.D. Liu (Singapore) 143
A study of the stretching process of steel–polymer–steel laminate
C.K. Chao, C.H. Liu and H.J. Wu (Taipei, Taiwan, ROC) 155
Equivalence and instability correlations for isotropic and anisotropic sheet plasticity
D.W.A. Rees (Uxbridge, UK) 173
Effect of submerged arc welding parameters and fluxes on element transfer behaviour and weld-metal chemistry
N.D. Pandey, A. Bharti (Hyderabad, India) and S.R. Gupta (Roorkee, India) 195
Mathematical model of rail straightening and experimental estimation of its adequacy
I.F. Volegov, A.P. Polyakov and S.V. Kolmogorov (Ekaterinburg, Russian Federation) .....
A numerical prediction of the temperature distribution in the thermionic cathode of a welding arc
K. Biswas (Kharagpur, India) 219

Letters to the Editor
A.S. Mahajan (Ranchi, India) 239
W. Johnson (Cheshire, UK) 243

Book review 245

Elsevier Science B.V.

Vol. 40, Nos. 3–4, January 1994

Contents i

A software system for anticipating the size and shape of submerged arc welds
B. Chan (Ottawa, Canada), R.S. Chandel, L.J. Yang (Singapore) and M.J. Bibby (Ottawa, Canada) 249
An upper-bound approach to plane-strain problems using a general triangular element
J. Qin (Bath, UK) 263
Parametric control for optimal quality of the workpiece surface in ECM
S.K. Sorkhel and B. Bhattacharyya (Calcutta, India) 271
Material removal analysis in abrasive waterjet cutting of ceramic plates
H. Hocheng and K.R. Chang (Hsinchu, Taiwan, ROC) 287
A deformation model for tube extrusion
S.B. Altan (Maslak-Istanbul, Turkey) 305
Rheological similarity of metals and alloys
G.G. Shlomchack (Dnepropetrovsk, Ukraine), I. Mamuzic (Zagreb, Croatia) and F. Vodopivec (Ljubljana, Slovenia) 315
Drawing of hemispherical cups using friction-actuated blank holding
S. Thiruvarudchelvan and J. Gan (Singapore) 327
Deep drawing of cylindrical cups with friction-actuated blank holding
S. Thiruvarudchelvan and N.H. Loh (Singapore) 343
The oxidation dynamics of laser cutting of mild steel and the generation of striations on the cut edge
A. Ivarson, J. Powell (Luleå, Sweden), J. Kamalu (Dundee, Scotland, UK) and C. Magnusson (Luleå, Sweden) 359
Rotary slotting
S.R. Brooks (Adelaide, Australia), M.D. Campbell (Elizabeth West, Australia) and D.R. Miller (Adelaide, Australia) 375
Superplastic deformation of duralumin LY12CZ under an electric field
M. Li, Y. Liu, S. Wu and X. Wu (Xi'an, China) 385
Inter-critical heat treatment of a low-alloy steel
S. Jana (Singapore) 395
Dynamic response analysis in end milling using pre-twisted beam finite elements
C.-L. Liao and J.-S. Tsai (Taipei, Taiwan, ROC) 407
An adaptive-control system for the grinding process
D. Yu, Z. Duan, J. Den and H. Ha (Wuhan, China) 433
Effects of ultrasonic vibration on the compaction molding of polymeric powders
S.-i. Matsuoka (Toyama, Japan) 443
UBET analysis of the closed-pass ring rolling of rings having arbitrarily shaped profiles
Y.H. Hahn (Seoul, South Korea) and D.Y. Yang (Taejon, South Korea) 451
A mathematical model for a short cut of the NC tool path on window-frame operation
R.-H. Sun and Y.-C. Tsai (Kaohsiung, Taiwan, ROC) 465
Reversible addition of hydrogen to titanium alloys
Yu.A. Aksyonov, L.I. Anisimova and V.L. Kolmogorov (Ekaterinburg, Russian Federation) 477
